

Happiness is in a naked live

WORLD'S NATURISM DESTINATION

Southwest of France preserves nature, naturism is the way to enjoy it! Wide open spaces, respect for others, innovation, preservation of the environment: this is the spirit of naturism. Naturism is decidedly the contemporary form of let go!

With 250 kilometres, this is quite simply Europe's biggest beach of fine sand. Added to this are the 500 kilometres of shores alongside the lakes and estuaries of the land of fortified towns, the Périgord, the Landes, and the Bordeaux vineyards who have also embraced naturism. Nigh on a third of naturist tourists choose the Southwest as their destination in France. They are quite right: the naturist sites adapt readily to new expectations, in line with the movement's fundamental values, yet each with its own personality. At La Jenny, we have the only naturist golf in the world! Choose the naked venue and come without anything!
